[2016-New Free Downloading 70-331 Exam Dumps PDF 210q From GreatExam (101-120)

GreatExam has updated the latest version of Microsoft 70-331 exam, which is a hot exam of Microsoft certification. It is GreatExam Microsoft 70-331 exam dumps that give you confidence to pass this certification exam in first attempt and with maximized score. QUESTION 101Drag and Drop QuestionYou are managing a SharePoint search topology.You need to index custom entity extractor types (tokenized content) in unstructured documents.Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Answer:

QUESTION 102Hotspot QuestionA company has a SharePoint farm. The environment contains a server-based virus scanner.You need to configure the SharePoint farm to clean infected documents when users open documents or save documents to their computers.How should you configure the antivirus settings? (To answer, select the appropriate check boxes in the answer area.)

Antivirus Settings

Specify when you want documents stored in document libraries and lists to be virus scanned, and whether you want your virus scanner to attempt to clean infected documents.

☐ Scan documents on upload

☐ Scan documents on download

☐ Allow users to download infected documents

☐ Attempt to clean infected documents

Answer:

Antivirus Settings

Specify when you want documents stored in document libraries and lists to be virus scanned, and whether you want your virus scanner to attempt to clean infected documents.

☐ Scan documents on upload

☑ Scan documents on download

☐ Allow users to download infected documents

☑ Attempt to clean infected documents

QUESTION 103You are managing a site collection in a SharePoint farm.You need to configure the minimum level of permissions necessary for users to manage lists in the site collectionWhat permission level should you configure? A.   ContributeB.   View Only C.   EditD.   Read Answer: C QUESTION 104You are managing a SharePoint farm. The SharePoint databases are configured to run on a dedicated instance of Microsoft SQL Server 2008 R2 Service Pack 1.You need to optimize query executions.What should you do? A.   Set the maximum degree of parallelism for SQL Server instances to 0.B.   Move the master database to a RAID 10 volume.C.   Set the maximum degree of parallelism for SQL Server instances to 1.D.   Set the maximum degree of parallelism for SQL Server instances to 32. Answer: CExplanation:Set max degree of parallelism (MAXDOP) to 1 for instances of SQL Server that host SharePoint databases to make sure that a single SQL Server process serves each request.Important:Setting the max degree of parallelism to any other number can cause a less optimal query plan to be used that will decrease SharePoint Server 2013 performance.http://technet.microsoft.com/en-us/library/hh292622(v=office.15).aspx QUESTION 105Drag and Drop QuestionYou install and deploy a SharePoint 2013 farm, and then use the database-attach method to upgrade from a SharePoint 2010 farm to the SharePoint 2013 farm.You need to upgrade a SharePoint 2010 site collection to a SharePoint 2013 site collection.Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

	Answer Area
Run a site collection health check.	
Create an upgrade evaluation site.	
Perform a site collection upgrade.	
Change the self-service upgrade settings.	
Verify that the upgrade was successful and the site works as expected.	

Answer:

QUESTION 106A SharePoint farm has a very large search index.Users report that search results are too broad.You need to ensure that properties can be used to refine search results.Which two options should you configure? (Each correct answer presents part of the solution. Choose two.) A.   SearchableB.   QueryableC.   Complete MatchingD.   RetrievableE.   RefinableF.   Sortable Answer: BEExplanation: To create a managed property, add type code to the name, and enable a managed property as a refiner1. Verify that the user account that performs this procedure is an administrator of the Search service application.2. In Central Administration, in the Application Management section, click Manage ser- vice applications.3. On the Manage Service Applications page, click the Search service application in which you want to create a managed property.4. On the Search Administration page, in the Quick Launch, under Queries and Results, click Search Schema.5. On the Managed Properties page, click New Managed Property.6. On the New Managed Property page, in the Property name box, in the Name and de- scription section, type the name of the new managed property, followed by the appropri- ate type code. For an overview of type codes, see Type codes.7. In the Type section, select the appropriate data type.8. In the Main characteristics section, set the following selections:QueryableoRefinable: Yes - active or Yes - latentoYou can also specify additional settings in this section.9. In the Mappings to crawled properties section, click Add a mapping.10. In the Crawled property selection dialog box, find the crawled property that you want to map to the managed property in the list, or search for it by typing the name of the crawled property in the box, and then clicking Find. http://technet.microsoft.com/en-us/library/jj679902.aspx#BKMK_MapCPtoRefinableMP QUESTION 107You are managing a SharePoint farm in an Active Directory Domain Services (AD DS) forest.The forest contains two domains named americas.contoso.com and europe.contoso.com. A single SharePoint farm is located in the americas.contoso.com domain and uses Kerberos authentication.Users in the europe.contoso.com domain cannot access the Excel Services application in the americas.contoso.com domain when using an external data source.You need to ensure that users in the europe.contoso.com domain can use the Excel Services application with external data sources.What should you do? A.   Deploy a SharePoint farm in the europe.contoso.com domain.B.   Configure Kerberos constrained delegation.C.   Configure basic Kerberos delegation.D. Configure anonymous access in the SharePoint farm. Answer: BExplanation:NOT A http://blogs.technet.com/b/excel_services__powerpivot_for_sharepoint_support_blog/archive/2013/11/06/excel-services-2010-amp-2013-kerberos-configuration.aspx http://sharepoint.stackexchange.com/questions/66145/how-to-setup-kerberos-constrained-delegation-for-sharepoint-excel-services-and-ahttp://technet.microsoft.com/en-us/library/ee662541(v=office.14).aspxIn most enterprise environments, Excel Calculation Services will be running on a different computer from the data source. This means that Kerberos delegation (constrained delegation is recommended) will be required to enable data connections that use Integrated Windows authentication. For more information about how to configure Kerberos constrained delegation for Excel Services, see Configure Kerberos authentication for SharePoint 2010 Products (white paper). QUESTION 108A company's SharePoint environment contains three web applications.The company must record the following information for each document in any of the three web applications:The date and time at which the document was last reviewed. Additional custom date and time information as requirements are identified.You have the following requirements:- Ensure that the current information is available when searching content and for refining search results.- Ensure that the additional custom date and time information can be assigned to content in all web applications.- Ensure that SharePoint users who are not farm administrators can record additional date and time information as required.You need to meet the requirements. What should you do? A.   Create a column of data type Date and Time in a document library in each site collection.B.   In Central

Administration, create a term set with a term of data type Date and Time.C.   Create a content type that uses a custom field of data type Date and Time in each site collection.D.   Create a site column of data type Date and Time in each site collection. Answer: B QUESTION 109Drag and Drop QuestionA company has a multi-tenant SharePoint environment that includes a web application named WebApp1. WebApp1 is not secure.The company plans to install SharePoint apps that allow all tenants access to custom applications.You need to ensure that WebApp1 can host the SharePoint apps over a secure URL.Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Answer Area

Install the SSL certificate on the SharePoint servers.

Configure IIS to bind the WebApp1 website to the SSL certificate.

Configure the SSL certificate in Central Administration.

Use claims-based authentication to secure user accounts.

Create an SSL certificate.

Configure IIS to use Kerberos authentication.

QUESTION 111You plan to create a workflow design by using Microsoft Visio 2013 and then import the design into SharePoint Designer 2013. You need to ensure that you have repetition capability. Which shape should you use? A.   StageB.   Assign a Task C.   StepD.   Loop Answer: A QUESTION 112You plan to create a SharePoint Business Process Automation (BPA) project. You need to process items for approval with the least amount of developer effort. Which tool should you use? A.   Remote Event ReceiverB.   Out-of-the-box workflowC.   SharePoint Designer workflowD.   Work Item Timer Job Answer: B QUESTION 113 Contoso uses a SharePoint site that contains subsites. Each subsite represents different projects. Each project site is based on a team site template and stores information and documents. Contoso has five teams: Manufacturing, Sales, Administration, Marketing, and IT. You must create a different look and feel for each team site such that any visitor to the site can identify the team by looking at the colors, fonts, and background image of the site. You need to create a different look and feel for each team. What should you do? (Each correct answer presents part of the complete solution. Choose all that apply.) A.   Open Contoso Corporate Microsoft PowerPoint Slides Template, save the template as ContosoCorporate.master, and then upload it to the Theme Gallery.B.   From SharePoint Designer, go to Content Types. Right-click and select Content Type Settings.C.   Get a site background image for each team and upload it to the site collection images library. Then create a new master page for each team site by using the Master Page Gallery.Set the version to 15.D.   From the Web Designer Galleries, choose Composed Looks and create a new item for each team site. Specify the title, URL of the master page, theme, background image, and font schema file.E.   On the Site Settings page in the Look and Feel section, choose Change the look.F.   Create a new font XML schema with a font specification for each team. Answer: BCD QUESTION 114A SharePoint farm includes two front-end web servers, one application server, and two clustered servers that run Microsoft SQL Server. The SharePoint Foundation Web Application service is not running on the application server. You plan to configure the SharePoint farm to receive and store email messages and email message attachments in libraries.You need to ensure that users can send email messages and attachments directly to libraries across the entire farm. You must accomplish this goal by using the least amount of effort.Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.) A.   Install and configure the Simple Mail Transfer Protocol (SMTP) service on each application server.B.   Install and configure the Simple Mail Transfer Protocol (SMTP) service on each front- end web server.C.   Enable and start the SharePoint Foundation Web Application service on each application server.D.   Enable incoming email by using the Automatic settings mode. E.   Enable and start the SharePoint Foundation Web Application service on each front-end web server.F.   Enable incoming email by using the Advanced settings mode. Answer: BFExplanation: B (not A):* Incoming email for SharePoint 2013 uses the SMTP service. You can use the SMTP service in one of two ways. You can install the SMTP service on one or more servers in the farm, or administrators can provide an email drop folder for email that is forwarded from the service on another server.* If you are not using a drop folder for email, the SMTP service must be installed on every front-end web server in the farm that you want to configure for incoming email.F (not D):* The basic scenario applies to a single-server farm environment and is recommended if you want to use default settings. The advanced scenario applies to a single-server farm or a multiple-server farm and contains several advanced options from which to chooseVerify that the user account that is performing this procedure is a member of the Administrators group on the server that is running the SharePoint Central Administration website.In Central Administration, click System Settings. On the System Settings page, in the E-Mail and Text Messages (SMS) section, clickConfigure incoming e-mail settings.If you want to enable sites on this server to receive email, on the Configure Incoming E-mail Select the Advanced settings mode.* To configure incoming email in an advanced scenarioetc.Not C, not E: The SharePoint Foundation Web Application service is not running on the application server.Reference: Configure incoming email for a SharePoint 2013 farm QUESTION 115Hotspot QuestionYou provision a Search service application and a User Profile service application for a SharePoint farm.A company policy requires that an account other than the default content access account must be used for crawling content.You need to configure permissions to crawl the profile store.Which User Profile service application object should you configure? (To answer, select the appropriate object in the answer area.)
Answer:

QUESTION 116You are managing a site collection in a SharePoint farm.You need to configure the minimum level of permissions necessary for users to manage lists in the site collection.What permission level should you configure? A.   ContributeB.   ReadC. Full ControlD.   Design Answer: D QUESTION 117Hotspot QuestionYou are troubleshooting a SharePoint app by using the Developer Dashboard.You need to view the events that have been logged for the selected request.Which tab should you select? (To answer, select the appropriate tab in the answer area.)

Answer:

QUESTION 118You are managing a SharePoint farm.You need to enable friendly URLs for a term set.What should you configure? A.   Term set taggingB.   Managed navigationC.   Custom propertiesD.   Search refinement Answer: B QUESTION 119Hotspot QuestionA SharePoint environment contains a Microsoft SQL Server Reporting Services (SSRS) server.You need to begin configuring SharePoint to write SSRS events to the Unified Logging Service (ULS) trace log.On the Monitoring page of Central Administration, which link should you select? (To answer, select the appropriate category in the answer area.)

Answer:

Health Analyzer
Review problems and solutions | Review rule definitions

www.greatexam.com

Timer Jobs
Review job definitions | Check job status

Reporting
View administrative reports | Configure diagnostic logging
Configure usage and health data collection | View health reports

QUESTION 120You are managing a SharePoint farm. The SharePoint databases are configured to run on a dedicated instance of Microsoft SQL Server 2008 R2 Service Pack 1.You need to optimize query executions.What should you do? A.   Move the master database to a RAID 10 volume.B.   Move the SharePoint databases to a RAID 10 volume.C.   Set the maximum degree of parallelism for SQL Server instances to 0.D.   Move the master database to a RAID 5 volume. Answer: B GreatExam offers you all the 70-331 exam questions which are the same as your real test with 100% correct and coverage rate. We provide the latest full version of 70-331 PDF and VCE dumps to ensure your 70-331 exam 100% pass.
