Following questions and answers are all new published by Microsoft Official Exam Center: <http://www.lead2pass.com/70-339.html>

**QUESTION 51** You need to configure the web application that will support the marketing department collaboration sites. What should you implement?

- A. an alternate access mapping for each productname value
- B. a wildcard inclusion managed path
- C. an explicit inclusion managed path
- D. a new web application for each productname value

**Answer:** B

**QUESTION 52** Hotspot Question You need to implement the Managed Metadata Service (MMS) application for the websites. For each website, which MMS configuration option should you use? To answer, select the appropriate option from each list in the answer area. NOTE: Each correct selection is worth one point.

**Answer:** QUESTION 53 Hotspot Questions You are the SharePoint administrator for a company. You have an on-premises SharePoint 2016 farm and an Office 365 SharePoint Online environment. The SharePoint Online environment uses a search index. You configure a Search Service application (SSA). You need to plan the integration between the SSA to the Office 365 tenant. For each step, which action should you perform? To answer, select the appropriate option from each list in the answer area.

**Answer:** QUESTION 54 Drag and Drop Questions A company uses SharePoint Server 2016 to manage documents and Microsoft Exchange Server 2013 for email. The company's legal and compliance team wants to be able to place holds on content to restrict data loss. The legal and compliance team has the following requirements:

- Team members must be able to search Exchange content from within SharePoint, including employee email messages.
- Team members must be able to export data by performing a single action.
- This content must only be accessible to the team members after you verify that the environment is configured properly.

You need to configure the SharePoint environment. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:** QUESTION 55 You are an administrator for an on-premises SharePoint 2016 farm. A partner organization needs access to some of the resources in the farm. The partner organization does not use Windows Active Directory and does not have third-party signed certificates. The partner organization does not have the personnel or expertise to set up and manage a public key infrastructure (PKI). The partner organization can supply you with a file that lists the users who need access to your SharePoint farm. All access to SharePoint resources must be authenticated. You need to configure authentication for the partner organization. What should you do?

- A. Configure forms-based authentication.
- B. Configure a federated relying party trust.
- C. Configure a cross-forest trust.
- D. Configure anonymous access.

**Answer:** A

**QUESTION 56** You are the SharePoint administrator for Contoso, Ltd. You deploy a new team site for the Marketing department to the company's SharePoint environment. The manager for the Marketing department must be able to add and manage groups in the new site. You need to grant the correct permissions to the manager while minimizing administrative impact. Which permission level should you grant to the manager?

- A. Designer
- B. Approver
- C. Site administrator
- D. Contributor
- E. Site Collection administrator

**Answer:** C

**QUESTION 57** You manage the term store for a company's on-premises SharePoint farm. You plan to replicate the production environment term store to a development environment. When you attempt to export the term store from the production environment, you receive the following error message: You do not have permission to use the bulk load statement. You need to complete the import of the term store. What should you do?

- A. Add the SharePoint farm administrator account to the SQL Server security administrator role.
- B. Grant the FullControl permissions to the farm administrator account for the \\MyShared\\locationMMS folder.
- C. Use an account that has the SQL administrator role assigned to it to perform the task.
- D. Add the MMS Service account to the SQL Server bulk admin role.

**Answer:** B

**QUESTION 58** A company plans to migrate a custom task tracking solution to SharePoint Online. The solution includes customized master pages, timer jobs, and content by query web parts. You need to migrate the solution to SharePoint Online and maintain long-term support for the solution. What should you do?

- A. Set all content by query web parts to use unthrottled requests.
- B. Replace all content by query web parts with content search web parts.
- C. Re-write the solution as a sandboxed solution.
- D. Re-write the solution as an app.

**Answer:** C

**QUESTION 59** A company has an on-premises SharePoint farm. The company also uses SharePoint Online. Employees must be able to access on-premises sites and SharePoint Online resources. You must use single sign-on (SSO). You need to configure authentication. Which three options should you configure? Each correct answer presents part of the solution.

- A. Windows Azure directory synchronization without Password Sync
- B. server to server authentication
- C. Active Directory Federation Services 2.0 with SSO
- D. forward proxy configuration
- E. Windows Azure directory synchronization with Password Sync

**Answer:** CDE

**QUESTION 60**

You administer a company's SharePoint Online environment. The environment hosts several site collections that are used to store documents that contain sensitive customer information. A user in the customer relationship department must share a document that contains scheduling and project information with multiple external vendors. The document contains scheduling and project information. You need to ensure that the external vendors can access and collaborate on the document. What should you do? A. Share the site containing the collaboration document and require sign-in. B. Share the document and do not require sign-in. C. Create a document library for the document and require sign-in. D. Share the document and require sign-in. Answer: D Your focus should be getting the best dumps to prepare for 70-339 exam. That is where Lead2pass comes in.
