[2017 New Updated Lead2pass Cisco 200-155 Braindump Free Download (41-50)

Lead2pass 2017 August New Cisco 200-155 Exam Dumps! 100% Free Download! 100% Pass Guaranteed! Whether you are a student attempting to pass 200-155 exam to be eligible for a post-graduate job, or a working professional hoping to improve your work credentials and earn that dream promotion Lead2pass is here to help. We have 200-155 exam dumps and brain dumps, so passing 200-155 exam is not an easy feat. Following questions and answers are all new published by Cisco Official Exam Center: https://www.lead2pass.com/200-155.html QUESTION 41The ARC is responsible for which two processes? (Choose two) A. network policy configurationB. fabric segmentationC. BGP end-node emulationD. ISL blocking per STP implementationE. switch firmware managementAnswer: AD QUESTION 42A network design engineer is asked to design a SAN (or a company Which two underlying principles of SAN design should be considered? Choose two.) A. fault isolation, consolidation while maintaining isolationB. future growth in LAN infrastructureC. security management, preferential network securityD. scalability of LAN infrastructure, reduced Ethernet QoS complexityE. short and long term port density and topology requirements Answer: AE QUESTION 43After configuring a vPC between the core Nexus 7000 and the middle of row Nexus 5548, the network administrator notices that one of the port channel interfaces is 90% utilized, while the other interface in the port channel is rarely used Further analysis reveals that the over utilized port has traffic earning from a single server that is accessing an SQL database What configuration on the Nevus 5548 will help rebalance the vPC? A. port-channel load-balance ethernet source-destination-ipB. port-channel load-balance ethernet source-destination-macC. port-channel load-balance ethernet destination-portD. port-channel load-balance ethernet source destination-port Answer: D QUESTION 44Cisco Fabric Extender Technology is based on which IEEE standard? A. 802.1BRB. 802.1AXC. 802.1ABD. 802.1BA Answer: AExplanation:802.1BA is for Audio Video bridging.802.1AX is for Link Aggregation.81.1AB is for Station and media access control connectivity discovery.FEX is based on 802.1 bridge port extension. QUESTION 45Which port is used for an interswitch connection between switches in a multihop FCoE scenario? A. N PortB. VF PortC. VN PortD. VE Port Answer: DExplanation:Two switches communicate using a virtual expansion port (VE Port) which makes an ISL, in a multihop FCoE scenario.FCoE uses virtual ports and not the node port (N Port). Virtual node ports (VN Port) are the ports on the host.VF ports are ports on a FC switch. QUESTION 46Which of the following is a virtual technology that helps create multiple route tables that function on the same physical router? A. VSSB. vPCC. VRFD. VSAN Answer: CExplanation:Virtual routing and forwarding (VRF) creates an l3 routing instance that functions on the same router. Virtual switching system (VSS) allows two switches to act as a single logical device, preferably a catalyst 6500 series switch.Virtual port channel (vPC) combines two nexus switches with 10 gig links to act as a single logical device.Virtual storage area network (VSAN) is a fabric technology which forms a collection of ports from connected fabric switches which can be partitioned into multiple VSANs. QUESTION 47Which statements are valid for a local SPAN configuration? (Choose two.) A. Source and destination interface must be on the same hostB. Source and destination interfaces can be on different hostsC. Destination vEthernet interface can be on a different VLAN than the sourceD. Destination interface can be a physical portE. Destination interface cannot be a physical port Answer: AD QUESTION 48Which two options are advantages of a spine and leaf architecture? (Choose two) A. robust multipathingB. traffic that is optimized for east-west communicationC. star topologyD. traffic that is optimized for north-south communicationE. exponential scalability Answer: AB QUESTION 49Which two Cisco Nexus 1000V Series Switch features exceed the functionality of the VWware vNetwork Distributed Switch? (Choose two) A. access control lists B. QoS markingC. Network vMotionD. port state migrationE. DV Port Groups Answer: AB QUESTION 50Which two are benefits of Cisco Unified Fabric? (Choose two) A. SNMPv3 strong authenticationB. reduced cablingC. zone port distribution D. consolidation of LAN and SAN over a common transportE. native AES-256 encryption of data in flight Answer: BD More free Lead2pass 200-155 exam new questions on Google Drive: https://drive.google.com/open?id=0B3Syig5i8gpDVFhnSlh5MURJTjQ Your focus should be getting the best dumps to prepare for 200-155 exam. That is where Lead2pass comes in. We have collected an extensive library of exam dumps from Cisco certification. 2017 Cisco 200-155 (All 98 Q&As) exam dumps (PDF&VCE) from Lead2pass: https://www.lead2pass.com/200-155.html [100% Exam Pass Guaranteed]
